

**THERMAHIVE™**

V2 Complete Kit | Precision Thermotherapy System

\$749.99

Complete Kit

WHAT'S INCLUDED

- ThermaHive Controller (Top Box)
- Bottom Treatment Frame
- Heater Insert (magnetic, tool-free removal)
- Blank Insert (converts to screened bottom board)
- SHT31-DIS Wireless Temperature & Humidity Sensor
- Hex Saddle Frame Mount (optional sensor positioning)
- Diffuser Board
- 8GB Micro SD Card
- Power Cord

KEY FEATURES

Modular insert system

Heater Insert locks in with magnets and removes with no tools. One heater serves multiple hives equipped with the same Bottom Treatment Frame.

No-drill wireless sensor

SHT31-DIS drops between frames with no modifications to woodware. Reads every 2 seconds. Optional Hex Saddle bridges two frame top bars to hold the sensor in place.

Ventilation mode

Circulate air through the hive without running a heat treatment — useful for hot weather and colony recovery.

Wireless updates and data logging

Firmware updates over the built-in Wi-Fi access point. Treatment data logs to the included 8GB SD card and downloads wirelessly.

Chemical-free treatment

No chemicals, no residue, no super restrictions. Harvest honey on your own schedule regardless of treatment timing.

Field-ready and safe

IP65-equivalent weatherproof enclosure, glove-friendly tactile controls, sunlight-readable OLED display, and dual relay protection on every run.

SPECIFICATIONS

Heater	110V 500W PTC Ceramic, Self-Regulating
Power input	110V AC Standard Outlet
Temp. range	Up to 125°F (52°C), Adjustable
Fan system	Dual PWM-Controlled 80mm Fans
Display	128x64 OLED, Sunlight-Readable
Controls	Soft Tactile Buttons, Glove-Friendly
Modes	Setpoint Hold, Timed Heat, Ventilation
Safety	Dual Relay Protection
Wireless sensor	SHT31-DIS Temperature & Humidity
Sensor battery	CR2032 Coin Cell (Included)
Update rate	Every 2 Seconds
Max sensors	Up to 50 Simultaneous
Data storage	8GB Micro SD Card (Included)
Connectivity	Built-in Wi-Fi — OTA Updates & Data Download
Hive fit	Standard 8 or 10-Frame Langstroth
Enclosure	IP65 Equivalent, Weatherproof

COMPATIBLE WITH

- ✓ Standard 8 or 10-Frame Langstroth Hive Equipment
- ✓ BroodMinder Monitoring Ecosystem
- ✓ ThermaHive V2 Expansion Components
